Detail-Oriented Project Supervisor with 4+ years of experience in software development and project coordination. Currently supervising 15+ students' software projects simultaneously at Islington College, managing full lifecycles and sprint cycles while ensuring efficiency. By leveraging my foundation in Project Supervising, Frontend Development, and UI/UX Designing, I ensure seamless collaboration to meet delivery goals.

Projects

Yala Himalayan Dog Chews

Built with Next.js and Tailwind, the site is fully responsive and focuses on a clean, modern browsing experience paired with a custom GSAP animation of dog chews.

Alpine Timepieces

Designed, prototyped and developed a fully mobile-responsive dynamic eCom-merce website using Next.js and Tailwind.

Trisara Restaurant

Created a dynamic website by designing the UI/UX in Figma and implementing it using React.js, ensuring a seamless and interactive user experience.

Druk Air Holidays

Developed a fully mobile-responsive dynamic website using React and guided junior developers throughout the project to ensure successful completion.

Sewa Printing Press

Designed and developed a dynamic website for Sewa Printing Press as per the clients needs.
